

ENVIRONMENTAL ADVISORY COUNCIL

UPPER SOUTHAMPTON, BUCKS COUNTY, PA.

AGENDA FOR REGULAR MEETING, Thursday, June 4<sup>th</sup>, 2026 @ 6:30pm

Approval of previous minutes of May 7<sup>th</sup>, 2026

Present:

OLD BUSINESS:

***Solar Energy for Upper Southampton Municipal Buildings***

Michael Stahly of Wilson Engineering is preparing a final evaluation of cost, construction recommendations and next steps that will be sent to Cathie. This will be forwarded to the township Supervisors, township Manager and township Solicitor prior to the Supervisors' meeting on Tuesday June 9<sup>th</sup>. The proposed project will be on their agenda. Who can attend? How can we spread the word so residents know this will be on the agenda?

***Upper Southampton Rail Trail***

Cathie and Marcia reviewed the list that Alex Munshaw shared of the groups that had signed up to care for a section of the trail through the Adopt the Trail program. We made calls to find out which groups were still interested and where there will need to be coverage. Once we receive new colored markings from Parks and Recreation we'll mark the areas. How to get new groups to Adopt sections not taken?

***Southampton Days EAC Table***

Update on getting a table for this event. Confirm coverage and what needs to be on the table.

NEW BUSINESS:

Enclosure for trees at Tamanend Park will be removed. Discussion on where to plant the seedlings there.

ADJOURNMENT

NEXT MEETING DATE: July 2, 2026 @ 6:30pm
